PROJECT

LED FLAT PANELS

DESCRIPTION

These LED troffer panels feature a sleek, modern design that fits seamlessly into standard T-grid drop ceilings, offering both 2×2 and 2×4 options. They provide adjustable colour tuning between 3000 K and 6500 K and smooth 0–10 V dimming, making them ideal for offices, classrooms, retail stores and healthcare facilities. With DLC Premium, ETL and UL listings, universal 120–277 V operation, integrated surge protection and a five-year/50 000-hour warranty, they deliver reliable, energy-efficient performance in any drop-ceiling

Models
